LOCKER STORAGES

Product information

Svenheim

Lockers are indispensable storage solutions in modern office environments. These storage units help maintain a tidy and organized workplace while ensuring the privacy and security of individuals' items. By offering dedicated storage space, lockers contribute to increased productivity by eliminating clutter and distractions from the workspace. Moreover, our locker configurator opens really wide possibilities to design this personal storage exactly as you want.

Cleaning and maintenance

General

Svenheim uses materials and surfaces that are resistant. No special maintenance beyond normal is required cleaning. Recommended cleaning method is cloth soaked in slightly warm water with a mild synthetic detergent. Avoid green soap or substances containing ammonia. Do not use solvents or cleaning detergents with abrasive / scouring powder.

Powder coated steel components

Used for table base. Clean as under «general» suggestions. Difficult stains are removed with chemical gasoline. Do not use solvents or cleaners with abrasive / scouring powder. Installation instructions for base are enclosed.

Quality assurance

Svenheim places high demands on quality both in terms of raw materials and processes in connection with product development, order processing, production, logistics and distribution. Our production unit in Lithuania, UAB Svenheim, is certified according to quality management standards ISO 9001 and 14001.

Investing in quality furnishings from Svenheim means that you buy products that are easy to complete and repair, with market-adapted guarantees. Our production is certified according to ISO 9001 and 14001. EPD is available. Our office in Norway has Miljøfyrtårn certificate.
